There is some satisfaction to live on a street like this.

Home Beautifying Suggestions

Are you going to be as careful and particular, about your landscape plantings, as you were about the floors, the tile, or trim, door knobs, heating plant, etc., used in your new home?

We have made a special study of landscape plantings, backed by over twenty years of experience and fair, prompt service. Our motto "Quality First" at the right price. We will gladly submit estimates on your planting.

Let us call particular attention to our written guarantee, see if you can find such a guarantee in any other Nursery Literature anywhere.

Being Nurserymen, puts us in a position to know the growth and habit of every plant, so that we only suggest the proper plant for every location.

You surely are not going to mar the beauty of your home by an improper or poorly planned landscape effect. Let us offer our suggestions.

Send for our folder Home Beautifying, showing plantings using Shrubbery, or our Evergreen Folder, Foundation Collections.

Hardy Shrubs, six to eight feet.

Hardy Shrubs, over eight feet.

Roses for general purposes.

Roses of the climbing sorts.

Vines, Hedges and Miscellaneous Plants.

Perennials for quick flowers and constant succession of color.

Can You Say This Of Your Home?

My home is surrounded by beautiful shrubs and trees that give me pleasure at the sight of them. While my house has been built several years and more pretentious residences have been built in the neighborhood, none of them have exceeded mine, because nature has been helping me beautify it, and an ideal home is where nature finds its fullest and truest expression. If I wished to sell my property I would ask a much larger price, and sell it much easier than the same building would bring had I not planted these shrubs and trees, and I can only be thankful to myself and the Nurseryman who helped me beautify my home in this way.

Let Us Make These Words Truly Yours.

Planting a Home is Not an Expense

But a Profitable Investment

It pays dividends of satisfaction. It does not require new tires or eat gasoline, and it is greater distinction than owning a sedan. Count the good plantings and automobiles in town and you will see why its value increases with age, and never has to be renewed.
